

Elementary Lunch/Snack Milk

Once again, the USDA of Agriculture will supply free lunch to all Minnesota school children.

Cartons of white 1% and chocolate skim milk are available for children in grades 1-5 to have with their snack each day. Kindergarten students do not have to pay for milk at break time. Their milk is provided by the Minnesota Kindergarten Milk Program.

- This program is separate from milk at lunch time.
- Each carton costs \$0.30.
- You can either pay as you go or pay \$50 for the entire year.
- Snack milk funds are added to your family's lunch/milk account. Each time your child has snack milk the funds are deducted from the student's meal/milk account.
- Milk at lunch time is included with the school meal. Please notify the office, by note or email, if you would like your child/children to have water with their lunch, otherwise 1% and chocolate milk will be offered.
- If a milk is purchased to drink with a cold lunch, that purchase is deducted from the student's meal account.
- Money can be sent to the office anytime marked to be used for snack milk.
